New York City Fire Premium Writings For First Half *of* 1935

Fire insurance net premiums for all stock companies in the entire New York Fire Insurance Exchange area totaled $14,809,464 for the first six months of 1935. This represents a decline of $698,705, or about 4½%, from the amount reported for the first half of 1934. Last year the writings were $15,508,169 and in 1933 they were $14,446,168, which was below the figure for this year.

In Manhattan and the Bronx the premiums this year amounted to $9,734,387, or slightly more than 5% below the 1934 figure of $10,257,051. In the first half of 1933 the companies and agents reported $9,550,704.

Brooklyn to July 1 this year produced $4,735,315 in fire premiums for stock companies. This is approximately 3½% under the 1934 total of $4,897,352 for the same borough. In the first six months of 1933 the Brooklyn premiums were $4,562,498.

Like the other districts the Long Island City-Shore Front area also reports a small decline, the total premiums being $339,762, as compared with $353,766 a year ago; a drop of slightly under 4%. In 1933, first half, premium writings were $332,965.

Higher totals than the above will be given in the New York Board's official report, as the latter includes the mutual companies' premiums and the automobile fire writings of numerous marine offices.

Of the Manhattan and Bronx writings, the aggregate premiums of the agency and company offices for the first six months of 1935, 1934 and 1933 are as follows:

AGENCIES

1935	$5,294,281
1934	5,822,990
1933	4,895,649

CITY DEPARTMENTS

1935	$4,440,106
1934	4,434.061
1933	4,655,054

THE EASTERN UNDERWRITER presents in this patrol edition the New York City fire insurance premium figures for Manhattan and Bronx, Brooklyn, Long Island City and Shore Front. These figures have never heretofore been available to the insurance fraternity in one publication issue. The total premiums for the entire New York Fire Insurance Exchange area are given by companies and—for the first time anywhere—by company groups. The figures cover the first six months of 1935 together with comparative figures for 1934 and 1933.

There is also published here for the first time the available individual company and group figures covering the New York Suburban Exchange territory for the entire year 1934 together with corresponding figures for 1933 and 1932.

Manhattan-Bronx	**$ 9,734,387—**	**Decrease**	**5%**
Brooklyn	**4,735,315—**	"	**3½%**
L. I. C. and Shore Front	**339,762—**	"	**4%**
Entire Exchange Area	**14,809,464—**	"	**4½%**

In preparing this premium edition it has been the aim of THE EASTERN UNDERWRITER to present these important figures of fire insurance operations in the Greater New York area in such form as to be of greatest service to all groups of the business—companies, brokers and agents— and it has spared no effort in including the several new features and additional information. For example, the New York Fire Patrol semi-annual figures (Manhattan and Bronx) have been published in previous years in August but the Brooklyn Patrol records have never heretofore been available to the insurance fraternity until September. In the Suburban Exchange field only grand total annual figures have been published in the past.

The tables in this edition comprise:

Manhattan and Bronx

1. The premium writings of each agency.
2. The premium writings of each city department.
3. The premium writings of each company, with the identification of its present agent or city department.
4. The premium writings of each of the company groups.

Brooklyn

1. The premium writings of each company (presented for the first time in a manner that will identify the two present Brooklyn agents of each particular company, making the issue of service as a placer's directory).
2. The premium writings of each of the company groups.

Long Island City and Shore Front

1. The premium writings of each company.

Entire N. Y. Fire Insurance Exchange Territory

1. The premium writings of each company.
2. The premium writings of each of the company groups (new).

New York Suburban Territory

1. The premium writings of each available company (new).
2. The premium writings of each available company group (new).

The value of this edition is enhanced by the publication for the first time anywhere of three new tables:

(a) the company group writings for the entire New York Fire Insurance Exchange area.

(b) the New York Suburban Exchange territory writings of available companies.

(c) the same figures arranged to show the writings by company groups.

The figures published here were obtained by THE EASTERN UNDERWRITER from the individual stock companies and agencies and are identical with the figures filed with the New York Board of Fire Underwriters for tax assessment for support of the New York Fire Patrol. Included are the automobile fire, sprinkler leakage and general cover premiums. Inland marine writings are not reported semi-annually.

While the figures reported are the actual Patrol figures, in the case of agencies representing companies controlled by larger or parent companies, the figures do not necessarily reflect the actual writings of such agencies for such companies, because of home office reinsurance adjustments. In many instances the agent's actual writings were more than the Patrol figures, the difference being absorbed by the parent company.

FAITHFUL PERFORMANCE

The horse has rendered to mankind a service beyond computing, ploughing the ground, harvesting his food, carrying his burdens, speeding his communications and facing death in his battles, dumbly begging in return, with gentle, pleading eyes, naught save a little care and the plainest of rations.

Surely, if "patient endurance is Godlike," there must be an equine heaven with tender grass and gentle breezes to reward the long suffering patience and loyal endurance of our ancient friend, the horse.

The presence in this issue of advertisements of many Manhattan and Brooklyn underwriting offices will enable insurance brokers, without leaving their desks, figuratively to undertake a tour of the "Streets" of the New York City insurance districts. Perusal of these advertisements will disclose much of interest and refresh one's mind as to the facilities and personalities of many of the city's offices. Company executives and fieldmen should also find these advertisements helpful when considering the appointment of new agents.

This edition will also serve as a "placer's directory" because of a feature instituted by The Eastern Underwriter. This is the inclusion of the name of the agent, or agents (the latter in the case of Brooklyn), alongside the name of each fire company in the tables on Pages 13 to 16 and 23 to 26. As all stock fire insurance companies doing business in the metropolitan district are listed, the "directory" is complete and up to date.

Manhattan-Bronx Premium Writings *of* Individual Companies

Tabulation Showing Standing On Comparative Income Basis

The following tabulation records the net amount of premiums on Manhattan and Bronx business reported by each company for the first half of 1935, together with comparative figures for 1934 and 1935. All of the stock fire companies writing in the areas mentioned are listed, and are arranged to show their ranking based upon premium writings for the 1935 half year period.

Listed alongside of each company is the name of its present agent. Identifying the name of the company agent is a new feature, which makes possible the use of this tabulation for directory purposes. In some instances, the agents listed in this table are not to be credited with having written the premiums recorded, the figures in such cases being the writings (in part or entirety) of a former agent. In other words, in this table the figures are to be interpreted as being for the company rather than being the agent's writings for the company.

	First Half		
	1935	1934	1933
Home of New York (City Department)	$520,530	$516,113	$594,102

**Premiums reinsured in parent company.*

The presence in this issue of advertisements of many Manhattan and Brooklyn underwriting offices will enable insurance brokers, without leaving their desks, figuratively to undertake a tour of the "Streets" of the New York City insurance districts. Perusal of these advertisements will disclose much of interest and refresh one's mind as to the facilities and personalities of many of the city's offices. Company executives and fieldmen should also find these advertisements helpful when considering the appointment of new agents.

This edition will also serve as a "placer's directory" because of a feature instituted by The Eastern Underwriter. This is the inclusion of the name of the agent, or agents (the latter in the case of Brooklyn), alongside the name of each fire company in the tables on Pages 13 to 16 and 23 to 26. As all stock fire insurance companies doing business in the metropolitan district are listed, the "directory" is complete and up to date.

How Company Groups Rank In Manhattan-Bronx Premium Writings

In the following tables there is presented the net premium income for the first six months of 1935 on Manhattan and Bronx business of the various groups of stock fire insurance companies. Company groups are arranged in the order of their premium production, together with the figures for the corresponding months of 1934 and 1933.

	First Half		
	1935	1934	1933
Home of New York Group			
Home of New York	$520,530	$516,113	$594,102

Long Island City *and* Shore Front Fire Premium Writings

The net premium income of the individual companies on risks located in Long Island City and Staten Island Shore Front is presented in the following table. The compilation, which is complete, does not include all companies operating in the N.Y.F.I. Exchange Territory, for the reason that some companies did not write any business in the Long Island City-Shore Front Areas.

The companies are arranged to show their ranking based on premium income for the first half of 1935.

Brooklyn Fire Premium Writings For First Half *of* 1935

Brooklyn net fire premiums of stock insurance companies for the first six months of 1935 total $4,735,315 as compared with $4,892,352 for the same period of last year, a decline of $162,037, or about 3½%. While below the 1934 figure this year's premiums are somewhat above 1933 which produced net income in Brooklyn of $4,562,498.

In presenting the Brooklyn premium writings for the first six months of 1935, together with comparative figures for the two previous years, the names of the Brooklyn agents for each company are given in parentheses.

This, a new feature introduced by The Eastern Underwriter, makes possible the use of this table as an up-to-date placers' directory. Because of many changes in company representation during the period of the tabulation, the listing of the agents' names is not necessarily an indication that such agents are to be credited with having written any portion of the premiums shown. It is also to be borne in mind that some portion of the Brooklyn business is written by Manhattan offices, so, in the majority of cases, even where there has been no change in the Brooklyn agency representation, the premiums credited to the company did not come entirely from the Brooklyn agents. The figures, therefore, indicate the company's, not the agent's, writings.

The figures in the table which follows do not include the automobile and inland fire premiums of marine offices. Otherwise they are complete. The table is compiled from figures obtained by The Eastern Underwriter from the individual companies or their agents, and are identical with those reported to the New York Board of Fire Underwriters for tax assessment purposes to defray expenses of the Fire Patrol.

The table shows the net premiums reported for each company in Brooklyn. The companies are listed according to their rank in premium production for the first half of 1935, and alongside the current year's premiums for each company are the net returns for the same months of 1934 and 1933.

Although there is comparatively little change in the net fire premium income between the first half of this year and the corresponding period of last year, company officers and agents generally are pleased with the substantial decline in Brooklyn losses this year, despite a few large fires. The loss experience in Brooklyn has improved considerably over what it was a short while ago.

When Brooklyn Was 50 Years Younger!

BACK IN 1885 the Corsa agency first became known as one of Brooklyn's progressive insurance offices. Now, a half century later, it continues to enjoy that reputation. It has been—and still is—a pioneer among Brooklyn agencies in making available to brokers new facilities and services.

Writing every form of insurance except life, and maintaining a Broker's Service and Engineering Department, it is "Brooklyn's Complete Insurance Agency."

If not already personally acquainted with Corsa Service, you are cordially invited to become so. You will find each department manned by a capable staff ready and eager to serve you.

ANDREW J. CORSA & SON

(Continued on Following Page)

The presence in this issue of advertisements of many Manhattan and Brooklyn underwriting offices will enable insurance brokers, without leaving their desks, figuratively to undertake a tour of the "Streets" of the New York City insurance districts. Perusal of these advertisements will disclose much of interest and refresh one's mind as to the facilities and personalities of many of the city's offices. Company executives and fieldmen should also find these advertisements helpful when considering the appointment of new agents.

This edition will also serve as a "placer's directory" because of a feature instituted by The Eastern Underwriter. This is the inclusion of the name of the agent, or agents (the latter in the case of Brooklyn), alongside the name of each fire company in the tables on Pages 13 to 16 and 23 to 26. As all stock fire insurance companies doing business in the metropolitan district are listed, the "directory" is complete and up to date.

Premium Writings *for* Entire N. Y. F. I. Exchange Territory

Tabulation Showing Standing On Comparative Income Basis

Fire premium income in the entire New York Fire Insurance Exchange territory during the first six months of 1935 for individual stock companies is presented in the table which follows. Likewise appear each company's writings for the corresponding six months of 1934 and 1933. The figures include premium income from Manhattan and Bronx, Brooklyn and Long Island City and Shore Front added together.

Whereas some companies write a large proportion of their business in Brooklyn and others operate chiefly in Manhattan the figures which follow present an accurate picture of how each company ranks in its writings in New York City Exchange territory as a whole.

(Continued on Following Page)

The presence in this issue of advertisements of many Manhattan and Brooklyn underwriting offices will enable insurance brokers, without leaving their desks, figuratively to undertake a tour of the "Streets" of the New York City insurance districts. Perusal of these advertisements will disclose much of interest and refresh one's mind as to the facilities and personalities of many of the city's offices. Company executives and fieldmen should also find these advertisements helpful when considering the appointment of new agents.

This edition will also serve as a "placer's directory" because of a feature instituted by The Eastern Underwriter. This is the inclusion of the name of the agent, or agents (the latter in the case of Brooklyn), alongside the name of each fire company in the tables on Pages 13 to 16 and 23 to 26. As all stock fire insurance companies doing business in the metropolitan district are listed, the "directory" is complete and up to date.

How Company Groups Rank In Premium Writings for Entire Exchange Territory

Company group fire premium writings for the entire New York Fire Insurance Exchange territory for the first six months of 1935 and for the corresponding six months of last year and 1933 appear in the tables which follow. Combined for each company and group are the premiums from Manhattan and Bronx, Brooklyn and Long Island City and Shore Front.

Whereas individual company writings for the entire Exchange area, as appear on the preceding pages, have been published before, this is the first time that group premium incomes for the whole territory have appeared in any publication. Through this new feature the reader may ascertain readily the complete Exchange territory fire income for any group and likewise the relative position of each group in volume of premium writings. The groups, in the order of their rank, follow:

	First Half		
	1935	1934	1933
Home of New York Group			
Home of New York	$746,241	$711,134	$806,271

New York Suburban Fire Premium Writings *for* 1934

Moderate Increase Indicated By Returns of Available Companies

Premium writings of stock fire companies in the territory embracing the Suburban Division of the New York Fire Insurance Rating Organization showed a moderate increase last year, according to the figures of available companies, following an uninterrupted series of declines beginning in 1930. The suburban territory includes seven counties of the state. They are Westchester, Nassau, Suffolk, Queens outside of Long Island City, part of the Bronx, Richmond, Putnam and Rockland.

With the improvement in real estate values and with a gradual decline in unemployment the importance of the New York suburban field as a premium producing source will likely increase for several years, barring some major obstacle not now foreseen. The 1932 premiums exceeded those of any year prior to 1926 and those for 1933 topped the 1924 totals. It is reasonable to suppose that the 1934 premiums compared favorably with those received by the companies during the high total years between 1926 and 1932. Premium writings in the suburban field increased almost without interruption from 1908 to 1929, according to figures issued by the Suburban Division, and while the setback received during the depression years has been severe, many company executives are confident that these outlying areas in the New York City district will show steady, if not rapid, recovery.

Mercantile Schedule

In the report of the Suburban Division covering 1934 application of the Simplified Mercantile Schedule to the remainder of Nassau County was referred to and rates have been promulgated on a card system. In addition, inspection work in Rockland and Putnam Counties was completed. The engineering department of the Suburban Division resurveyed, rechecked and recomputed under the National Board grading schedule key rates for sixty localities, fifty-five of which were in connection with the application of the Simplified Mercantile Schedule.

During the last year 152 brokers signed the Suburban voluntary pledge and agreement. The net number of pledged brokers on December 31 last was 8,756.

During 1934 the Suburban Division stamping department checked 64,399 more pieces as compared with 1933; an increase of about 6% in total pieces checked. More than 90% of the increase in pieces was endorsements and canceled policies. The number of pieces checked last year totaled 1,143,518, compared with 1,079,119 in 1933 and 1,142,111 in 1932. There were 80,450 violations imposed, against 66,515 in 1933 and 75,596 in 1932. The 1934 violations represented 7.03% of the pieces stamped. This Division distributes fifteen approved forms free of charge to members and their agents. During 1934 there were over 6,056,000 of these forms and 1,794,400 permits and clauses distributed, an increase from the previous year of 2,412,100 forms and 733,775 permits and clauses. These increases were due largely to the adoption of mandatory amended electricity permits.

PHILADELPHIA, PA.

. . . insure the FOREIGN HOLDINGS *of* YOUR clients

Progressive brokers and agents are reaping substantial profits underwriting American holdings in foreign countries. Today, the dislocation of values and foreign exchanges is greater than ever before.

The best interests of your clients, therefore, require sound insurance *effected at home.*

You, too, can handle this type of insurance conveniently and profitably through the A. I. U., which provides a highly-efficient world-wide service.

All transactions and settlements are made through our main offices in New York City.

Do not hesitate to consult us regarding the insurance of your clients' holdings in foreign countries.

PRACTICE FOR THE FIREMEN TRAGEDY PERHAPS FOR YOU

CLEVER fellows, these firemen—but when it is your car that's burning and you have no insurance, you are not being entertained. It's no fun to watch the boys pump gallons of chemical into the wreck to stop the flames and fix the job for the junk pile.

We write complete Automobile Insurance that covers practically anything that can happen to your car. No matter how much or how little a man is worth, he *cannot afford* to drive without adequate insurance protection.

Some misguided "gazabos" say that a Fire & Theft Policy is all you need. But Liability coverage against claims for personal injuries is as necessary as buttons on your shirt. More people have lost their shirts on the short end of lawsuits than in the stock market.

You will not have to worry about large losses if you have us handle your automobile insurance.

WE'LL HAVE THE ZURICH PROTECT YOU

ZURICH GENERAL ACCIDENT & LIABILITY INSURANCE CO., LTD.,
of Zurich, Switzerland

ZURICH FIRE INSURANCE COMPANY
of New York

COMMERCIAL UNION GROUP

ONE OF THE LARGEST FIRE, MARINE AND CASUALTY GROUPS IN THE UNITED STATES
